TEAMSTERS

National Automobile Transporters Industry Negotiating Committee

Memorandum

To: Carhaul Local Union Principal Officers with members at Jack Cooper Transport and its affiliated companies

From: Kevin Moore, Co-Chairman, Teamsters National Automobile Transporter Industry Negotiating Committee (TNATINC)

Date: July 11, 2019

This is to advise Local Unions with members employed by Jack Cooper Transport (and its affiliated companies) that TNATINC was notified in late June that Jack Cooper Transport officials to meet and address certain serious financial challenges the company is facing. Based on confirmation by a separate review of financial records, TNATINC Co-Chairmen convened the National Union Committee yesterday with the company to listen to a presentation by the company. TNATINC has a team of financial experts and legal counsel familiar with both the carhaul and the automotive industry that were included at the meeting.

We will keep all members updated as we attempt to explore a solution to the information we were presented yesterday. In the meantime all members should continue working as usual.
